TECHNICAL SKILLS

- Programming Languages: Python, Java
- Frontend: HTML, CSS
- Backend : Flask(Learning)
- Automation & Scraping: Selenium,
- Databases: SQLite
- Core Concepts: Object-Oriented Programming (OOP), Data Structures (Basics)
- Tools: Git, GitHub

LANGUAGES

- Tamil
- English

CERTIFICATES

- Azure Fundamentals (Exam AZ-900)
- Python Certification (FreeCodeCamp)
- Git/Github (Simplilearn)

PROFILE

I'm a student on the way to becoming a software developer, currently learning and building projects in Python and Java Familiar with web development fundamentals, automation using Selenium, and basic REST API development, while actively developing projects to strengthen problem-solving and practical development skills.

PROJECT EXPERIENCE

LEAP VITAL CARE 2024 - 2025

IoT-Based Real-Time Patient Monitoring System

- Built an IoT-based patient monitoring system using **ESP32, Flask, HTML, CSS, and JavaScript**
- Created backend APIs using Flask (Python) to process sensor data and alerts
- Integrated temperature and heart rate sensors with **ESP32 for data collection**
- Implemented **REST APIs** for vital data, emergency alerts, and GPS location

AI VULNERABILITY CHECKER (DEEPSEEK) 2025 - 2025

VS Code Extension for AI-Based Security Analysis

- Developed a **VS Code extension** using JavaScript to detect security vulnerabilities in code
- Integrated AI (Hugging Face API) to analyze code and identify issues with severity levels
- Built an interactive webview UI to display vulnerabilities, code snippets, and suggested fixes
- Supported multiple languages (**Python, Java, C++, JS**) with real-time scanning and feedback

Osmium (Human Resource Management) 2026 - Present

AI-powered employee and resource management platform

- Building an AI-powered employee and resource management platform with interactive organizational canvases, project hierarchy management, leave tracking, RAG-based document intelligence, and visual team assignment workflows using FastAPI, Supabase, vector search, and modern frontend technologies.

EDUCATION

2023 - 2027

B.E. in Computer Science and Engineering (Cyber Security)

Prince Dr. K. Vasudevan College of Engineering and Technology
